

Learning Roadmap

Full Stack Developer Learning Roadmap

Dev User | Goal: Full Stack Developer | 12 weeks

Weekly Milestones

Week 1: Frontend Fundamentals

- Review JavaScript basics
- Learn HTML5 and CSS3
- Familiarize with a frontend framework (e.g., React, Angular)

Week 4: Backend Development

- Deep dive into Node.js and Express.js
- Learn about databases (e.g., MongoDB, PostgreSQL)
- Understand API design principles

Week 8: Full Stack Integration

- Learn about authentication and authorization
- Implement a full stack application using Node.js and a frontend framework
- Deploy the application to a cloud platform (e.g., AWS, Heroku)

Week 12: Project Completion and Review

- Complete a comprehensive full stack project
- Review and refine skills
- Prepare for certifications or interviews
